PROFESSIONAL PROFILE

Cloud, DevOps and Site Reliability Engineering consultant with more than three years of hands-on experience building, operating and improving production environments. Experience across AWS architecture, Terraform, Kubernetes, CI/CD, GitOps, observability, incident investigation and cloud-native operations. Engineering background that supports a structured approach to planning, risk, cost and problem-solving.

CORE EXPERTISE

AWS Cloud Architecture VPC, IAM, EC2, RDS, S3, CloudFront, EKS, Lambda	Infrastructure as Code Terraform, repeatable environments, automation
Kubernetes & Platforms Kubernetes, EKS, Docker, Helm, Argo CD	CI/CD & GitOps GitHub Actions, Jenkins, delivery automation
Observability & SRE Prometheus, Grafana, Loki, Elastic, OpenTelemetry	Operations Troubleshooting, incidents, synthetic monitoring, Linux

PROFESSIONAL EXPERIENCE

Cloud, DevOps & SRE Consultant

FSO Cloud Consulting | Jan 2025 - Present | Florianopolis, SC, Brazil

Independent consulting focused on AWS architecture, infrastructure automation, CI/CD, observability and cloud-native operations.

- Design and evolve AWS architectures considering availability, scalability, security, networking and cost.
- Automate infrastructure provisioning with Terraform and Infrastructure as Code practices.
- Build and operate containerized environments with Kubernetes, Amazon EKS, Docker and Helm.
- Implement CI/CD, GitOps, synthetic monitoring, dashboards and actionable alerts.
- Investigate failures using metrics, logs, APIs and availability data to support incident resolution.

DevOps Engineer

FCamara | Jan 2023 - Dec 2024 | Florianopolis, SC, Brazil

Worked on automation, operation and evolution of cloud infrastructure and Kubernetes environments supporting production applications.

- Provisioned AWS infrastructure with Terraform, including VPC, IAM, EC2, RDS, S3 and Amazon EKS.
- Standardized CI/CD pipelines with GitHub Actions and managed Kubernetes releases with Helm.
- Implemented and evolved observability with Prometheus, Grafana, Loki and Elastic Stack.
- Supported production environments through troubleshooting, incident investigation and failure analysis.

Civil Engineer

Cymaco Engenharia | Feb 2020 - Jan 2023 | Florianopolis, SC, Brazil

Planned and monitored construction projects with responsibility for budgets, financial analysis, schedules, resources and decision support.

- Developed systems thinking, organization, risk analysis and structured problem-solving.

SELECTED TECHNICAL PROJECTS

Secure Frontend Delivery on AWS [Completed]

Delivered a React SPA from a private S3 origin through CloudFront with OAC, ACM and Route 53. Validated HTTPS redirection, SPA routing, private-origin access controls and cache behavior.

Stack: React, Amazon S3, CloudFront, ACM, Route 53, OAC

Serverless Marketplace with Identity and Events [In progress]

Evolving the published SPA into an architecture with Cognito authentication, protected APIs, DynamoDB persistence, private product images and asynchronous order processing with SQS and a DLQ.

Stack: Cognito, API Gateway, Lambda, DynamoDB, S3, SQS

End-to-End DevOps Platform on AWS [Lab]

Provisioned AWS infrastructure and connected CI/CD, Kubernetes deployment, GitOps and observability in one delivery workflow.

Stack: AWS, Terraform, Jenkins, Kubernetes, Argo CD, Prometheus, Grafana

Kubernetes Observability Projects [Lab]

Built multi-cluster and 360-degree observability architectures covering centralized metrics, logs, distributed traces, SLIs, SLOs and error budgets.

Stack: EKS, Prometheus, Grafana, Loki, Fluent Bit, OpenTelemetry, Tempo

FinOps and AWS Cost Optimization [Lab]

Developed cost monitoring, budget alerts, rightsizing analysis and automation for idle resources.

Stack: AWS Cost Explorer, AWS Budgets, Compute Optimizer, Lambda

EDUCATION

Bachelor's Degree in Computer Science - Universidade do Sul de Santa Catarina (Unisul) | 2026 - 2030 | In progress

Bachelor's Degree in Civil Engineering - Universidade do Sul de Santa Catarina (Unisul) | 2012 - 2017

Technical Degree in Building Construction - Instituto Federal de Santa Catarina (IFSC) | 2010 - 2011

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

AWS Certified Cloud Practitioner | Linux Essentials | Databricks Fundamentals | Terraform - From Basic to Advanced | SRE DevOps - End-to-End Journey

IBM DevOps and Software Engineering Professional Certificate - Coursera | 2026 | In progress

LANGUAGES

Portuguese - Native | English - Professional working proficiency | French - Elementary
